intentionally different

a team you can trust with your business

- **transparent** - no nonsense. we aren't your typical contracting company
- **experienced** - we have served in startups and enterprises in roles such as CTO/CIO, architects, principal engineers, and organizational change agents
- **partners** - we work for your business like it's our business. that means building the right things and building them well, together
- **passionate** - building, joining and inspiring the healthy teams that build awesome stuff
- **catalysts** - we are your innovation catalyst, joining, supporting, and amplifying your existing talent with our multi-disciplinary team
- **tailored** - outcome driven, sized to fit, flexible to your needs and budget, only what you need
- **let's go** - we are the missing members of your team, and we can't wait to build with you
